DL Tartaric Acid Specification

DL Tartaric Acid is a colorless and semi-transparent or white powder, with a sour taste. It is widely used in many fields such as food additive, medicine, the chemical and light industries etc., and is mainly used to make tartrates (tartaric acid salts), like antimony potassium tartrate, and potassium sodium tartrate. It can be used as a beer vesicant, foodstuff sourness agent, and flavoring etc. Its sourness is 1.3 times of that of citric acid, and it is especially suitable to be a sourness agent of grape juice. It is also very important for the tannage, photograph, glass, enamel and telecommunication equipment industries.

CAS No.	133-37-9
E No.	E334
HS Code	29181200
Specification	Tartaric Acid Anhydrous and Monohydrate
Packaging	25kg
Place of origin	China
Certificate	Haccp, Kosher, Hala, ISO
Payment terms:	T/T or L/C
Port of dispatch	Shanghai, Tianjin, Qindao
Applications	DL-Tartaric Acid is an odorless, white powder or colorless crystals, with a sour taste, that is used as a beer foaming agent and acidifying agent in grape juice. It can also be used as acidity regulations, biochemical reagents, resolving agents on racemic, and pharmaceutical resolving agents in beverage, sugar, bread and gelatin.

DL-Tartaric Acid

	PRODUCT SPECIFICATION	Rev. No.	03-201807
	DL Tartaric Acid	Page	2/2

Specification	DL-Tartaric Acid Anhydrous	DL-Tartaric Acid Monohydrate
Appearance	White powder	White crystalline powder
Assay(on dry basis)	≥ 99.50%	≥ 99.50%
Heavy metal(As Pb)	≤ 10 PPM	≤ 10 PPM
Arsenic	≤ 2PPM	≤ 2PPM
Sulfate	≤ 0.048%	≤ 0.048%
Loss on drying	≤ 0.5%	≤ 11.5%
Melting point	200-206°C	200-206°C

We're DL-Tartaric Acid **Manufacturers, Suppliers and Wholesalers** in China.

Based on our 15 years in food additives & ingredients market, we have a knowledge of China market and manufacturers. We can help our abroad customers save time selecting good manufacturers and update the current market in China.
