L-Methionine Specification

L-Methionine is an essential amino acid (not produced by the human body) found in protein-rich foods such as eggs, fish, nuts, and seeds. It is a precursor to protein synthesis, has antioxidant properties, and is commonly used as a dietary supplement.

E No.	E620
CAS No.	56-86-0
Packaging	25kg
Place of origin	China
Certificate	Haccp, Kosher, Hala, ISO
Payment terms:	T/T or L/C
Port of dispatch	Shanghai, Tianjin, Qindao
Applications	Food grade L-Methionine is a white crystalline powder that features a mildly acidic odor and is soluble in alcohol and water. Functioning as a dietary and nutritional additive, this product finds application in nutritional foods and beverages.

L-Merhionine

Abbreviation	L-Met
Chemical Name	(2S)-2-Amino-4-(methylsulfanyl) Butanoic Acid
Chemical Formula	C ₅ H ₁₁ NO ₂ S

	PRODUCT SPECIFICATION	Rev. No.	03-201807
	L-Methionine	Page	2/3

Molecular Weight	149.21
Nitrogen Content	9.39%
CAS Number	63-68-3
Specification	USP, EP, JP
Solubility	Soluble in water
Assay	99.0 tp 101.0%
Description	White crystals or crystalline powder; characteristic odor
Country of Origin	China
Manufacturing Process	Enzymatic
Additional Information	Methionine is an essential amino acid and critical to phospholipid metabolism. It can be a component in infant formula, sports supplements and a flavoring substance.

We're L- Methionine **Manufacturers, Suppliers and Wholesalers** in China.

Based on our 15 years in food additives & ingredients market, we have a knowledge of China market and manufacturers. We can help our abroad customers save time selecting good manufacturers and update the current market in China.
