Nicotinic Acid(Vitamin B3) Specification

Nicotinic Acid is a white crystalline powder with a molecular weight of 123.11. Also called Vitamin B3, Vitamin PP or Niacin, Nicotinic Acid is slightly soluble in water, glycerol and propylene glycol. Nicotinic Acid is an organic compound and an essential human nutrient. Vitamin B3 can be found in most meats, fruits, and vegetables or added to health foods

CAS No.	59-67-6
Molecular Formula	C₆H₅NO₂
Packaging	25kg
Place of origin	China
Certificate	Haccp, Kosher, Hala, ISO
Payment terms:	T/T or L/C
Port of dispatch	Shanghai, Tianjin, Qindao
Applications	Vitamin B3 – Nicotinic Acid appears as a white to off-white colored powder. This product is used as a food additive to promote metabolism, human growth and development, improve blood supply and to treat mucosal inflammation. Vitamin B3 – Nicotinic Acid is commonly found in dietary supplements, health food, beverages and energy drinks.

Nicotinic Acid (Vitamin B3)

ITEM	SPECIFICATION
------	---------------

	PRODUCT SPECIFICATION	Rev. No.	03-201807
	Nicotinic Acid (Vitamin B3)	Page	2/2

Appearance	White or almost white crystalline powder
Solubility	Conform
Identification	Positive Reaction
Melting range	234~240°C
Related substances	Conform
Chloride	≤ 0.02%
Heavy Metals	≤ 0.002%
Loss on drying	≤ 1.0%
Sulphate ash	≤ 0.1%
Assay	99.5~100.5%

We're Nicotinic Acid (Vitamin B3) **Manufacturers, Suppliers and Wholesalers** in China.

Based on our 15 years in food additives & ingredients market, we have a knowledge of China market and manufacturers. We can help our abroad customers save time selecting good manufacturers and update the current market in China.
