L-Histidine Specification

L-Histidine is one of the 10 essential amino acids for infants. Most lists of amino acids classify L-histidine as an essential amino acid; however, it has never been clear if L-histidine is an essential amino acid for adults. Even though L-histidine is synthesized by the body, sufficient quantities may not be made to meet the physiological requirements imposed by certain stress or disease situations. L-histidine plays a key role in production of red and white blood cells.

CAS No.	71-00-1
Packaging	25kg
Place of origin	China
Certificate	Haccp, Kosher, Hala, ISO
Payment terms:	T/T or L/C
Port of dispatch	Shanghai, Tianjin, Qindao
Applications	Food grade L-Histidine Base is a white crystal powder and a semi-essential amino acid, only being produce in small amounts by the body and requiring the rest from diet. It is used as a nutritional food additive and can be found in baby food and formula for infants, as well as functional foods for adults.

L-Histidine

Abbreviation	L-His
Chemical Name	(S)-2-Amino-1H-imidazole-4-propionic Acid
Chemical Formula	C ₆ H ₉ N ₃ O ₂

	PRODUCT SPECIFICATION	Rev. No.	03-201807
	L-Histidine	Page	2/3

Molecular Weight	155.15
Nitrogen Content	27.08%
CAS Number	71-00-1
Specification	USP, EP, JP
Solubility	Soluble in water
Assay	99.0% to 101.0%
Description	White crystals or crystalline powder; slightly bitter taste
Country of Origin	China
Manufacturing Process	Fermentation
Additional Information	Histidine is an essential amino acid and plays a key role in production of red and white blood cells. It can be used in parental and enteral nutrition, and in the food industry as a supplement, seasoning and flavoring substance.

We're L-Histidine **Manufacturers, Suppliers and Wholesalers** in China.

Based on our 15 years in food additives & ingredients market, we have a knowledge of China market and manufacturers. We can help our abroad customers save time selecting good manufacturers and update the current market in China.
